

BIOMEN LABS

Email & Retention System

Expert Rewrite - Lifecycle Automation Playbook for T-CORE

POSITIONING

Product: T-CORE
Format: 60 vegetarian capsules - 30-day supply
Dosage: 2 capsules daily after meals
Core price: INR 1,499 per bottle
Brand voice: premium, calm, founder-led, transparent, masculine without being loud
Regulatory stance: Ayurvedic Proprietary Medicine / wellness support language only

System	Flows	Emails	Primary Revenue Job
v2 expert lifecycle	7	25	Convert first order, protect Day-30 reorder, build reviews, create subscription/bundle behavior

1. Expert Diagnosis of the Original System

The original 5-flow system is a strong foundation: it correctly covers welcome, browse abandonment, abandoned cart, post-purchase and winback. **The main problem is not the structure; it is precision.** A serious Ayurvedic/nutraceutical retention system must be more compliant, more segmented, more reorder-focused and more aligned to T-CORE's final formula and brand tone.

What Was Good	What Needed Fixing	Expert Upgrade in v2
Lifecycle thinking was present: welcome, cart, browse, post-purchase, winback.	Ingredient copy used older formula references such as Safed Musli, Gokshura and Shatavari, which no longer match final T-CORE.	All ingredient education now uses the final T-CORE formula: Shilajit, Fenugreek, Tongkat Ali, Ashwagandha and Black Pepper/Piperine.
Founder-led voice was strong and human.	Some copy sounded too aggressive for a premium wellness brand, especially words like "garbage" and hard pressure language.	Tone has been upgraded to calm confidence: direct, premium, credible and not desperate.
Good understanding that Day-28 reorder is high LTV.	The system did not fully separate usage education, review capture, subscription/bundle upsell and referral logic.	New system adds continuity, review/referral and subscription/bundle behavior as separate strategic jobs.
Correct idea of using Klaviyo custom events.	Custom site event mapping needed more detail: Started Checkout, Fulfilled Order, Delivered Order, Reordered, Review Submitted and Subscription Started.	Implementation section now gives exact event architecture and suppression rules.
Good reminder not to fabricate testimonials.	Testimonials still contained specific outcomes that should only be used after written proof and permission.	All testimonial modules are now written as replaceable templates with compliance and permission notes.

Strategic call

Launch the minimum viable system with 4 flows only: Welcome, Abandoned Cart, Post-Purchase Onboarding and Reorder. Add Browse Abandonment once tracking is stable. Add Winback only after you have customers reaching 60+ days without a second purchase. Do not overbuild before your first 100 customers.

2. Retention Strategy Principles for T-CORE

Retention starts before the first order: A customer who understands the formula, dosage expectations and 30-day timeline before buying will complain less, use the product more consistently and become easier to convert into a second order.

Month 2 is the business: For a 30-day daily-use product, the real profit is not the first bottle. It is second-order conversion, 90-day bundle adoption and subscription behavior.

Education reduces refund pressure: Men buying vitality products often expect instant effects. Your emails must set a calm expectation: consistency, food timing, sleep, hydration and 30-day evaluation.

Premium brands do not beg: Avoid constant discounts. Use value framing, free shipping, priority dispatch, bonus guide, founder support and bundle economics before price cuts.

Compliance is a growth asset: Clean claims, real reviews and transparent dosage build trust. This is especially important in male vitality, where consumers are skeptical and regulators are sensitive.

3. New Flow Architecture

Flow	Emails	Trigger	Primary Goal	Launch Priority
1. Welcome / Lead Nurture	4	Popup or lead capture signup	Convert subscriber to first buyer	Day 1
2. Browse Abandonment	3	Viewed T-CORE page, no add-to-cart	Bring warm traffic back to PDP	Week 2 after tracking QA
3. Cart + Checkout Recovery	4	Added to cart or started checkout, no order	Recover high-intent buyers	Day 1
4. Post-Purchase Onboarding	5	Placed Order	Reduce regret, increase correct use, prepare reorder	Day 1
5. Reorder + Continuity	4	Day 24-35 after order, no reorder	Protect second order and push 90-day pack	Day 1
6. Review + Referral	2	Delivered + 21/35 days, or Review Submitted	Build social proof and referral loops	After first 30 orders
7. Winback	3	60-90 days since last purchase	Reactivate lapsed buyers	After 60 days

4. Claim & Compliance Guardrails

Safe Language	Avoid / Legal Review Required	Reason
Supports natural vitality, stamina, strength, energy, recovery and male wellness.	Increases testosterone, cures low testosterone, treats ED, reverses hormonal imbalance.	Direct disease/treatment/hormone claims can create regulatory and platform risk.
Ayurvedic Proprietary Medicine. Use as directed on label.	Clinically proven to boost testosterone unless approved with substantiation and exact study context.	Marketing must not overstate ingredient research as product-level proof.
Real customer experience may vary. Use consistently as directed.	Guaranteed results, instant results, no side effects.	Avoid absolute promises and misleading expectation setting.
No proprietary blends. Full dosage transparency.	Best in India, number one, doctor recommended unless provable.	Superiority and endorsement claims need substantiation.
Influencer partnership disclosed clearly when free product/payment is involved.	Hidden paid reviews, seeded testimonials presented as organic.	Protects consumer trust and avoids ASCI/endorsement issues.

Practical rule for every email

Every email should pass this test: Would we be comfortable showing this exact copy to a regulator, a skeptical customer, Amazon, Meta Ads review, and a doctor? If not, soften the claim before sending.

5. Event, Segment and Data Architecture

Event / Property	Where It Fires	Use in Flows
Subscribed to List	Popup or form submit	Welcome flow start. Capture first_name, phone, consent source, utm_source.
Viewed Product	T-CORE product page load	Browse abandonment and content segmentation.
Added to Cart	Add-to-cart click	Cart recovery start. Include product_name, quantity, cart_value, cart_link.
Started Checkout	Checkout page/session creation	High-intent checkout abandonment branch.
Placed Order	Payment/COD order confirmed	Post-purchase flow, suppression from pre-purchase flows.
Fulfilled Order	Order dispatched	Shipping reassurance and tracking education.
Delivered Order	Courier delivered status	Usage guide timing and review timing.
Review Submitted	Review platform event	Referral or VIP thank-you flow.
Reordered	Second or repeat order placed	Stop reorder nudges; move to loyalty path.
Subscription Started	Subscription/bundle purchase	Suppress reorder offer; move to subscriber education.
Core Segment	Definition	What To Do
New Lead - No Purchase	Subscribed but never purchased.	Welcome education, social proof, low pressure conversion.
High Intent - Cart/Checkout	Added to cart or started checkout, no order.	Short recovery series with trust and checkout help.
First-Time Buyer	Exactly one order.	Onboarding, usage, Day-24 to Day-30 reorder path.
Repeat Buyer	Two or more orders.	VIP tone, bundle/subscription, founder access, early product access.
At-Risk Buyer	Bought once, no second order by Day 35.	Feedback request, barrier mapping, soft offer.
Lapsed Buyer	60-90 days since last order.	Winback with empathy first, incentive second.

6. Brand Voice Rules

Use More Of This	Use Less Of This
Calm authority: "Here is what is inside, why it is there, and how to use it properly."	Aggressive bro copy: "destroy fatigue", "become alpha", "boost testosterone fast".
Founder accountability: "Reply to us. We read every message."	Generic corporate phrases: "Dear valued customer", "limited period sale".

Transparent value framing: "INR 1,499 for 30 days, about INR 50/day."	Constant discounting that trains customers to wait.
Masculine sophistication: discipline, consistency, energy, resilience.	Oversexualized libido-first framing.
Proof-first: real dosage, real label, real batch testing, real customers.	Unsubstantiated claims or borrowed study exaggerations.

Flow 1 - Welcome / Lead Nurture

Trigger: popup, waitlist or lead form signup. Exit: purchase, unsubscribe, or suppression. Strategy: sell trust before selling the bottle.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 4 - Welcome to BIOMEN LABS

Trigger	Timing	Goal
New subscriber added to list	Immediately	Create trust and frame the brand.

Recommended subject line: Welcome to BIOMEN LABS - read this first

Subject line bank: The reason we built T-CORE | A quick note from Nikhil and Ayushman | Before you explore T-CORE, read this | The honest story behind BIOMEN LABS

Preview text: A founder note on why T-CORE exists and what makes it different.

FULL EMAIL COPY

Hey {{first_name}},

Welcome to BIOMEN LABS.

Before you look around, here is the simple truth behind this brand: we did not want to create another loud supplement company. We wanted to build the kind of men's wellness product we wished existed in India - transparent, premium, disciplined and easy to understand.

T-CORE is our first product. It is a daily male vitality formula built around five selected herbal extracts: Shilajit, Fenugreek, Tongkat Ali, Ashwagandha and Black Pepper Extract.

No proprietary blend. No hidden doses. No 40-ingredient label designed to look impressive but say very little.

Our belief is simple: men do not need more hype. They need better routines, better standards and products that are clear about what is inside.

Start with T-CORE here:

{{product_link}}

And if you have a question before you order, reply to this email. You will reach a real person from the BIOMEN team.

Nikhil & Ayushman
BIOMEN LABS

CTA: Explore T-CORE

Implementation notes: Do not include a discount. This is trust-building, not a hard pitch.

Email 2 of 4 - What is inside T-CORE

Trigger	Timing	Goal
48 hours after signup, no purchase	Day 2	Educate on formula and transparency.

Recommended subject line: 5 ingredients. No hidden doses.

Subject line bank: What you would actually be taking | The T-CORE formula, explained plainly | Shilajit, Fenugreek, Tongkat, Ashwagandha, Piperine | Most labels confuse you. Ours should not.

Preview text: The formula explained without hype or medical promises.

FULL EMAIL COPY

Hey {{first_name}},

A serious supplement should be easy to understand.

Here is the daily serving of T-CORE:

- Shilajit Extract - 500 mg, chosen for vitality, stamina and energy support.
- Fenugreek Extract - 490 mg, chosen for male wellness, strength and vitality support.
- Tongkat Ali Extract - 300 mg, chosen for masculine vitality and performance-support positioning.
- Ashwagandha Extract - 300 mg, chosen for stress resilience, recovery and adaptogenic support.
- Black Pepper Extract / Piperine - 10 mg, chosen to support absorption and formula efficiency.

That is 1,600 mg of active herbal ingredients per daily serving. Two capsules. Once daily after a meal.

We built T-CORE this way because the modern Indian man is dealing with stress, inconsistent routines, poor recovery and energy dips. T-CORE is not a shortcut. It is a daily support system for men who are building better foundations.

See the full formula here:

CTA: See Full Formula

Implementation notes: Use final approved ingredient standardizations only after manufacturer CoA confirms them. Do not mention KSM-66, Safed Musli, Gokshura or Shatavari unless the formulation changes.

Email 3 of 4 - How to think about a 30-day routine

Trigger	Timing	Goal
4 days after signup, no purchase	Day 4	Set expectations and reduce instant-result mindset.

Recommended subject line: A 30-day formula needs a 30-day mindset

Subject line bank: What T-CORE is - and what it is not | The mistake men make with supplements | No instant hype. Just consistency. | {{first_name}}, this matters before you buy

Preview text: Why consistency matters more than expecting overnight results.

FULL EMAIL COPY

Hey {{first_name}},

Here is something we want to say before you buy T-CORE.

Do not judge a daily herbal formula like a pre-workout. T-CORE is not designed to hit you in 20 minutes. It is built to become part of your routine.

The men who get the most out of products like this usually do three things well:

1. They take it consistently.
2. They take it with food.
3. They give their body enough time to respond.

That is why every bottle is a 30-day supply. The first bottle gives you a real read. The second and third month are where consistency becomes a lifestyle.

T-CORE supports vitality, energy, stamina, strength and male wellness - but your basics still matter: food, training, sleep, hydration and discipline.

That is the honest way to use it.

Explore T-CORE:
{{product_link}}

BIOMEN LABS

CTA: Explore T-CORE

Implementation notes: This email prepares customers for post-purchase adherence and lowers unrealistic expectations.

Email 4 of 4 - Final first-purchase nudge

Trigger	Timing	Goal
7 days after signup, no purchase	Day 7	Convert without damaging premium positioning.

Recommended subject line: Still thinking about T-CORE?

Subject line bank: INR 1,499. 30 days. A simple decision. | One final note before we step back | The honest case for trying T-CORE | {{first_name}}, this is the full proposition

Preview text: The simple value frame: transparent formula, 30-day supply, founder accountability.

FULL EMAIL COPY

Hey {{first_name}},

This is the last email in this welcome series.

Here is the simple case for T-CORE:

A full 30-day supply.

Five selected herbal extracts.

1,600 mg active ingredients per daily serving.

No proprietary blend.

A premium Ayurvedic male vitality formula built by founders whose names are attached to the product.

Price: INR 1,499 - roughly INR 50 per day.

If you are looking for an instant miracle, T-CORE is not the right product.

If you are looking for a clean daily system to support vitality, stamina, energy, recovery and male wellness, this is exactly what we built it for.

Try T-CORE here:

{{product_link}}

Have a final question? Reply to this email.

Implementation notes: After this email, exit from Welcome. Do not keep pushing; move to normal newsletter or suppression segment.

Flow 2 - Browse Abandonment

Trigger: Viewed Product, no Added to Cart after 4-6 hours. Exit: add to cart, purchase or unsubscribe. Strategy: quick re-entry without sounding creepy.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 3 - The short version of T-CORE

Trigger	Timing	Goal
Viewed T-CORE page, no cart event	4-6 hours after view	Bring back product-page visitors.

Recommended subject line: Still looking at T-CORE?

Subject line bank: The 60-second version of T-CORE | You viewed T-CORE earlier | Worth another look? | The formula you checked out, simplified

Preview text: A short recap of the formula and who it is for.

FULL EMAIL COPY

Hey {{first_name}},

You were looking at T-CORE earlier, so here is the short version.

T-CORE is a daily male vitality formula for men who want to support energy, stamina, recovery, strength and overall male wellness - without loud, overhyped supplement branding.

Daily serving:

Shilajit 500 mg + Fenugreek 490 mg + Tongkat Ali 300 mg + Ashwagandha 300 mg + Black Pepper Extract 10 mg.

60 vegetarian capsules. 30-day supply. 2 capsules daily after meals.

Take another look here:

{{product_link}}

BIOMEN LABS

CTA: Take Another Look

Implementation notes: Send only to opted-in contacts. If anonymous site browsing is not legally/technically connected to consent, do not email.

Email 2 of 3 - Why the formula is simple

Trigger	Timing	Goal
---------	--------	------

48 hours after product view, no cart or purchase	Day 2	Explain 5-ingredient philosophy.
--	-------	----------------------------------

Recommended subject line: Why T-CORE has 5 ingredients, not 25

Subject line bank: Simple formulas are harder to build | No filler. No label theatre. | A cleaner way to formulate | The reason we kept T-CORE focused

Preview text: Why fewer, purposeful ingredients communicate premium quality.

FULL EMAIL COPY

Hey {{first_name}},

A lot of supplements try to impress you with huge ingredient lists.

We went the other way.

T-CORE uses five ingredients because every ingredient needs a job.

Shilajit supports vitality and stamina. Fenugreek supports male strength and vitality. Tongkat Ali gives the formula its modern masculine performance edge. Ashwagandha supports stress resilience and recovery. Black Pepper Extract supports absorption.

That is the system.

Not more ingredients for the sake of looking complicated.

Not a proprietary blend.

Not a formula that hides behind small quantities.

Just a focused daily male vitality formula.

See the product here:

{{product_link}}

BIOMEN LABS

CTA: See T-CORE

Implementation notes: This email is strong for skeptical buyers who read labels.

Email 3 of 3 - Social proof placeholder

Trigger	Timing	Goal
5 days after product view, no cart or purchase	Day 5	Use proof only when real.

Recommended subject line: What early customers are saying

Subject line bank: Before you move on, read this | Real feedback matters here | The kind of men T-CORE is built for | Still deciding? This may help.

Preview text: Customer proof, but only after real reviews are collected.

FULL EMAIL COPY

Hey {{first_name}},

Before you decide whether T-CORE is for you, read this kind of feedback we are looking for from early customers:

- Did they use it consistently for 30 days?
- Did they follow the dosage properly?
- Did they notice support in energy, stamina, recovery, training consistency or general vitality?
- Would they reorder for month 2?

We do not want fake hype. We want real customer experiences from men who used the bottle properly.

As BIOMEN grows, this email should be updated with verified reviews from actual customers. Until then, the promise stays simple: full formula transparency, founder accountability and a product built for long-term male wellness routines.

Take another look:
{{product_link}}

BIOMEN LABS

CTA: Take Another Look

Implementation notes: Replace this with 2-3 real testimonials only after written permission. Never fabricate names, cities, photos or claims.

Flow 3 - Cart + Checkout Recovery

Trigger: Added to Cart or Started Checkout, no Placed Order. Exit: purchase. Strategy: fix friction, build trust, use one value-add gesture before discounting.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 4 - Cart reminder

Trigger	Timing	Goal
Added to Cart, no purchase	1 hour after cart	Recover interrupted shoppers.

Recommended subject line: You left T-CORE in your cart

Subject line bank: Your T-CORE cart is saved | Still completing your order? | One click to finish your order | {{first_name}}, your order is not complete yet

Preview text: Your cart is saved. Complete when ready.

Implementation notes: Keep this short. No heavy selling. The customer already showed intent.

Email 2 of 4 - Trust and objections

Trigger	Timing	Goal
24 hours after cart, no purchase	Day 1	Handle skepticism and price friction.

Recommended subject line: The common doubts before buying T-CORE

Subject line bank: Is T-CORE worth INR 1,499? | Before you leave your cart behind | A straight answer to the usual questions | Still unsure? Read this.

Preview text: Transparent answers to trust, value and expectation concerns.

FULL EMAIL COPY

Hey {{first_name}},

You were close to ordering T-CORE. If you paused, it is probably for one of these reasons.

"Can I trust a new brand?"

Fair question. BIOMEN LABS is founder-led. Our names are attached to the product, and we are building in public with full formula transparency.

"Is INR 1,499 worth it?"

That is about INR 50 per day for a 30-day male vitality formula with 1,600 mg of active herbal ingredients per daily serving. We would rather explain the value clearly than hide behind fake discounts.

"Will I feel it immediately?"

T-CORE is not a stimulant. Use it consistently as directed and evaluate it over a proper 30-day routine.

"What if I have a question?"

Reply here. We respond.

Your cart is here:

Nikhil & Ayushman

BIOMEN LABS

CTA: Complete Order

Implementation notes: Works best when paired with visible trust assets: batch testing, manufacturer details, customer care and clear return/replacement policy.

Email 3 of 4 - Checkout help / COD reassurance

Trigger	Timing	Goal
36 hours after cart or checkout, no purchase	Day 2	Remove operational friction.

Recommended subject line: Need help finishing checkout?

Subject line bank: COD, delivery, timing - quick answers | Did checkout stop you? | A practical note about your T-CORE order | Before your cart expires

Preview text: Answer logistics objections: COD, delivery, payment, support.

FULL EMAIL COPY

Hey {{first_name}},

Sometimes the reason someone does not complete checkout is not the product. It is the process.

Quick answers:

- COD/prepaid: choose the option shown at checkout.
- Delivery: tracking is shared after dispatch.
- Dosage: 2 capsules daily after a meal.
- Pack size: 60 vegetarian capsules, 30-day supply.
- Support: reply to this email or contact customer care if anything looks wrong.

Finish your order here:

{{cart_link}}

BIOMEN LABS

CTA: Return To Checkout

Implementation notes: For India, COD reassurance matters. Add WhatsApp support link only if operationally ready.

Email 4 of 4 - Final value-add gesture

Trigger	Timing	Goal
72 hours after cart, no purchase	Day 3	Recover without discounting.

Recommended subject line: One final nudge on your T-CORE cart

Subject line bank: We will add priority dispatch today | Final reminder about your T-CORE order | Your cart will not stay active forever | Still want T-CORE?

Preview text: A final reminder with a non-price value add.

FULL EMAIL COPY

Hey {{first_name}},

Final note about your T-CORE cart.

Complete your order today and we will prioritise your dispatch from our side. No discount code, no gimmick - just a small gesture for someone who was already considering it.

T-CORE - INR 1,499 - 60 vegetarian capsules - 30-day supply

Complete here:

{{cart_link}}

If this is not the right time, no hard feelings. We will not keep chasing this cart.

BIOMEN LABS

CTA: Complete Order

Implementation notes: Avoid discounting in first cart flow. If you use an offer, prefer free shipping, priority dispatch or a printed usage guide.

Flow 4 - Post-Purchase Onboarding

Trigger: Placed Order. Exit/suppression: cancelled, refunded, returned. Strategy: reduce buyer remorse, teach correct use and prime the second order.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 5 - Order confirmed + founder reassurance

Trigger	Timing	Goal
Placed Order	Immediately	Validate purchase and reduce regret.

Hey {{first_name}},

Your T-CORE order is confirmed.

Order: #{{order_id}}

Product: T-CORE - 60 vegetarian capsules - 30-day supply

You will receive dispatch and tracking details once your order is prepared.

A quick note from us: thank you for trusting a new brand. We know that trust has to be earned, not demanded.

When your bottle arrives, follow the dosage exactly as printed on the label. T-CORE is built for consistency, not overnight hype.

If anything looks wrong with your order, reply to this email and we will help you.

Nikhil & Ayushman
BIOMEN LABS

CTA: Track My Order

Implementation notes: Can be partly transactional. Keep deliverability clean and do not overload it with sales copy.

Email 2 of 5 - Usage protocol

Trigger	Timing	Goal
Delivered Order or 3 days after order if no delivery event	Day 3 / Delivery Day	Teach correct use.

Recommended subject line: How to use T-CORE properly

Subject line bank: Read this before day 1 | The T-CORE usage protocol | 2 capsules. Food. Consistency. | Your 30-day T-CORE guide

Preview text: The simple protocol to get the most from the bottle.

FULL EMAIL COPY

Hey {{first_name}},

Before you start T-CORE, keep the protocol simple.

How to take it:

- 2 capsules daily.
- Take after a meal.
- Take at roughly the same time every day.
- Do not exceed the recommended dosage.
- If you are under medication or have a medical condition, speak to a physician before use.

What to expect:

Week 1 is about routine. Do not look for dramatic changes.

Week 2-3 is when many consistent users begin to understand how the product fits their routine.

Week 4 gives you a fair first read.

T-CORE supports male vitality, stamina, energy, strength and wellness. It works best when your basics are strong: sleep, hydration, food and movement.

Save this email.

BIOMEN LABS

CTA: Read Ingredient Guide

Implementation notes: Be careful with week-by-week result promises. Keep them framed as routine guidance, not guaranteed effects.

Email 3 of 5 - Ingredient confidence

Trigger	Timing	Goal
7 days after delivery/order	Day 7	Reinforce product quality and transparency.

Recommended subject line: Why we chose these 5 ingredients

Subject line bank: The formula behind your bottle | A deeper look at T-CORE | No proprietary blend. No hidden doses. | The details matter here

Preview text: Explain formula logic after the customer has started.

FULL EMAIL COPY

Hey {{first_name}},

By now, T-CORE should be part of your daily routine.

Here is why the formula is built the way it is:

Shilajit supports vitality and stamina.

Fenugreek supports male strength and vitality.

Tongkat Ali gives the formula its modern masculine wellness edge.

Ashwagandha supports stress resilience and recovery.

Black Pepper Extract supports absorption.

The point is not to overload your body with a long list of fashionable ingredients. The point is to create a focused daily system that is easy to use consistently.

That is why we kept T-CORE transparent. You should know what you are taking.

BIOMEN LABS

CTA: View Formula Details

Implementation notes: This builds confidence in the product during the crucial first week.

Email 4 of 5 - Mid-bottle check-in

Trigger	Timing	Goal
14 days after order/delivery	Day 14	Collect issues privately and prevent negative experience.

Recommended subject line: Two weeks in - quick check-in

Subject line bank: How is T-CORE fitting your routine? | {{first_name}}, a quick question | Any questions about your bottle? | Are you taking it consistently?

Preview text: A private check-in before public review request.

FULL EMAIL COPY

Hey {{first_name}},

You are around two weeks into your T-CORE routine.

Quick check-in: how is it going?

Are you taking 2 capsules daily after a meal?

Have you missed many days?

Any discomfort, confusion or questions?

Reply with one word if that is easiest:

GOOD - everything is fine.

QUESTION - you need help using it properly.

ISSUE - something is not right.

We would rather help you privately and quickly than let confusion turn into a bad experience.

BIOMEN LABS

CTA: Reply To This Email

Implementation notes: This is not a review request. It is a CX and issue-prevention email.

Email 5 of 5 - Review request

Trigger	Timing	Goal
21-24 days after delivery/order, no issue tag	Day 21-24	Collect credible reviews.

Recommended subject line: 3 weeks in - can we ask for your honest review?

Subject line bank: Your T-CORE feedback matters | {{first_name}}, how has month 1 been? | Help the next man decide | Honest review only

Preview text: A review request that values honesty over hype.

FULL EMAIL COPY

Hey {{first_name}},

You are now deep enough into your first T-CORE bottle to have a real opinion.

We would genuinely appreciate your honest review.

If the product has been useful for your routine, your review helps the next man make a better decision. If something has not been right, reply to this email first and we will understand what happened.

Leave your review here:

{{review_link}}

Please keep it real. Specific, honest feedback is more valuable to us than exaggerated praise.

Nikhil & Ayushman

BIOMEN LABS

CTA: Leave A Review

Implementation notes: Request only from delivered customers. Do not incentivize only positive reviews. If incentive is offered, offer it regardless of sentiment and disclose terms.

Flow 5 - Reorder + Continuity

Trigger: First-time buyer approaching end of supply, no second purchase. Strategy: win month 2 before habit breaks.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 4 - Day 24 continuity reminder

Trigger	Timing	Goal
24 days after order/delivery, no reorder	Day 24	Prepare reorder before bottle runs out.

Recommended subject line: Your T-CORE bottle is nearing the final week

Subject line bank: Do not let the routine break | Month 2 matters | Nearly time for your next bottle | {{first_name}}, plan your next 30 days

Preview text: Continuity reminder before the customer runs out.

FULL EMAIL COPY

Hey {{first_name}},

You are likely entering the final week of your first T-CORE bottle.

This is the moment where most people make one of two choices:

They either continue the routine and give their body a proper longer window, or they stop, get busy and lose momentum.

If T-CORE has been fitting well into your routine, reorder before the gap starts.

Reorder here:
{{reorder_link}}

BIOMEN LABS

CTA: Reorder T-CORE

Implementation notes: Do not wait until Day 30. Indian delivery timelines and COD delays mean Day 24-26 is better.

Email 2 of 4 - Month 2 value frame

Trigger	Timing	Goal
28 days after order/delivery, no reorder	Day 28	Make second purchase feel logical.

Recommended subject line: Month 1 builds the base. Month 2 keeps it moving.

Subject line bank: About 2 days left | Ready for your second bottle? | Your next 30 days are the real test | Reorder before the gap

Preview text: Explain why second bottle matters without making guaranteed claims.

FULL EMAIL COPY

Hey {{first_name}},

If you have taken T-CORE consistently, you are near the end of your first 30 days.

Month 1 gives you the first read. Month 2 helps you understand whether this should become part of your regular routine.

That is why we recommend avoiding a gap.

Your reorder link:

{{reorder_link}}

T-CORE - INR 1,499 - 30-day supply

If you have questions before reordering, reply here.

BIOMEN LABS

CTA: Reorder Now

Implementation notes: Suppress if second purchase is already placed.

Email 3 of 4 - 90-day bundle introduction

Trigger	Timing	Goal
30-35 days after first order, no reorder OR after second purchase	Day 30-35	Increase AOV and reduce churn.

Recommended subject line: A better way to stay consistent

Subject line bank: Consider the 90-day T-CORE plan | One bottle is a trial. 90 days is a routine. | For men who want consistency | Your 90-day option

Preview text: Introduce bundle as consistency tool, not discount trick.

FULL EMAIL COPY

Hey {{first_name}},

A single bottle is a trial. A 90-day supply is a routine.

That is why the 90-day T-CORE bundle exists. It reduces gaps, saves you the reorder effort and keeps the protocol simple.

Best for you if:

- You used the first bottle consistently.
- You want to give T-CORE a fair longer window.
- You dislike running out and reordering last minute.

View the 90-day option here:

{{bundle_link}}

BIOMEN LABS

CTA: View 90-Day Bundle

Implementation notes: Only launch this once supply, cash flow and inventory are stable. Bundle economics should protect margin.

Email 4 of 4 - Feedback if no reorder

Trigger	Timing	Goal
38-42 days after order/delivery, no reorder	Day 38-42	Learn why they did not continue.

Recommended subject line: Can we ask why you did not reorder?

Subject line bank: Quick feedback from you | Did T-CORE fit your routine? | {{first_name}}, one honest question | Help us improve T-CORE

Preview text: Ask for reason before discounting.

FULL EMAIL COPY

Hey {{first_name}},

We noticed you have not reordered T-CORE. No pressure - but your feedback would help us a lot.

What was the main reason?

A - I forgot / got busy.

B - Price felt high.

C - I did not use it consistently.

D - I did not feel enough difference.

E - Something else.

Reply with the letter. That is enough.

We are building BIOMEN seriously, and feedback from real customers is more valuable than guesses.

Nikhil & Ayushman
BIOMEN LABS

CTA: Reply With A Letter

Implementation notes: Tag responses. This becomes your churn insight dashboard.

Flow 6 - Review + Referral Loop

Trigger: Review Submitted or positive response. Strategy: turn satisfaction into proof and one referred customer.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 2 - Thank you for the review

Trigger	Timing	Goal
Review Submitted	Immediately after review	Build goodwill and encourage social proof.

Recommended subject line: Thank you for your honest review

Subject line bank: Your review genuinely helps | Appreciate you, {{first_name}} | This means a lot to BIOMEN | Thanks for helping the next customer

Preview text: Thank and invite UGC without pressure.

FULL EMAIL COPY

Hey {{first_name}},

Thank you for leaving a review.

For a new brand, real feedback matters more than almost anything else. It helps the next person decide with more confidence, and it helps us understand what to improve.

If you are comfortable, you can also share your experience on Instagram and tag us at {{instagram_handle}}. No pressure - only if it feels natural.

Thank you for being part of the early BIOMEN community.

Nikhil & Ayushman
BIOMEN LABS

CTA: Follow BIOMEN On Instagram

Implementation notes: If reposting customer content, request explicit permission before using it in ads or website assets.

Email 2 of 2 - Referral ask

Trigger	Timing	Goal
Positive review or second order	2-3 days after positive signal	Acquire one warm referral.

Recommended subject line: Know one man who should try T-CORE?

Subject line bank: One favour, only if T-CORE helped | Share T-CORE with one person | Help one friend build the routine | A simple referral ask

Preview text: Ask for one person, not mass sharing.

FULL EMAIL COPY

Hey {{first_name}},

Small ask.

If T-CORE has been useful for your routine, think of one man who might appreciate the same kind of daily support - someone focused on work, training, energy, recovery or simply getting his basics back in order.

Forward this email to him or share this link:
{{referral_link}}

We are not trying to become loud. We are trying to grow through men who genuinely understand what we are building.

Appreciate you.

BIOMEN LABS

CTA: Share T-CORE

Implementation notes: Create referral mechanics later: Give INR X, get INR X, or free shipping credits. Start manual if needed.

Flow 7 - Winback / Churn Prevention

Trigger: 60-90 days since last purchase and no active subscription. Strategy: empathy first, offer second, graceful exit third.

Flow guardrail

Suppress anyone who purchases, unsubscribes, refunds, cancels, raises a support issue tagged ISSUE, or enters another higher-intent flow. Do not let flows overlap in a way that feels robotic.

Email 1 of 3 - Human check-in

Trigger	Timing	Goal
60 days since last purchase	Day 60	Understand churn reason.

Recommended subject line: Checking in, {{first_name}}

Subject line bank: Did T-CORE fit your routine? | It has been a while | Quick founder check-in | Can we ask what happened?

Preview text: No pitch. Ask why they stopped.

FULL EMAIL COPY

Hey {{first_name}},

It has been a while since your last T-CORE order.

No pitch in this email. Just a genuine check-in.

Did T-CORE fit your routine? Did you stop because of price, results, consistency, delivery experience or something else?

Reply with one word if that is easier:

We read these replies because they tell us what to improve.

Nikhil & Ayushman
BIOMEN LABS

CTA: Reply With Feedback

Implementation notes: No buy link in the first winback email. The job is insight and relationship repair.

Email 2 of 3 - Returning customer offer

Trigger	Timing	Goal
7 days after winback 1, no purchase/reply	Day 67	Win back price-sensitive lapsed buyers.

Recommended subject line: A returning customer offer for you

Subject line bank: Come back to T-CORE with 15% off | Your private reorder code | One offer to restart the routine | For previous T-CORE customers

Preview text: Offer a controlled incentive after empathy touch.

FULL EMAIL COPY

Hey {{first_name}},

Since you have tried T-CORE before, here is a returning customer offer if you want to restart the routine.

Use code RETURN15 for 15% off your next bottle.

This brings T-CORE to INR {{discounted_price}} for your next order.

Use it here:

{{product_link}}

Code valid for 7 days.

If price was not the reason you stopped, reply and tell us what was.

BIOMEN LABS

CTA: Use RETURN15

Implementation notes: Use 15% first, not 20%, to protect premium pricing. Escalate only if economics justify it.

Email 3 of 3 - Graceful goodbye

Trigger	Timing	Goal
7 days after winback 2, no purchase	Day 74	Preserve brand perception and list quality.

Recommended subject line: Last email from us for now

Subject line bank: We will step back after this | RETURN15 expires tonight | A final note from BIOMEN | This is the last reminder

Preview text: Final chance, then suppress from winback.

FULL EMAIL COPY

Hey {{first_name}},

This is the last winback email from us for now.

Your RETURN15 code expires tonight. If you want to restart T-CORE, here is the link:
{{product_link}}

If now is not the right time, that is completely fine. We will step back instead of cluttering your inbox.

Thank you for trying T-CORE once. If you decide to come back later, we will be here.

BIOMEN LABS

CTA: Use RETURN15 Before It Expires

Implementation notes: Move non-purchasers to a low-frequency nurture or suppressed/churned segment. Protect deliverability.

8. Launch Priority and Build Plan

Phase	Build	Why
Week 1	Post-Purchase Onboarding + Reorder + basic Cart Recovery	Protect every first buyer and recover highest-intent visitors from day one.
Week 2	Welcome Flow + popup segmentation	Turn organic launch traffic into first purchases.
Week 3	Browse Abandonment	Add once Viewed Product tracking and consent capture are verified.
After 30 orders	Review + Referral Loop	Start building proof only after real customers exist.
After 60 days	Winback	No lapsed customers exist before this, so do not overbuild early.
After 100 orders	90-day bundle, subscription prompts, VIP segment	Once repeat demand is visible, create continuity offers.

9. KPI Dashboard

Flow	Primary KPI	Secondary KPI	Warning Sign
Welcome	First-purchase conversion rate	Reply rate, click rate	High opens but low clicks means value proposition is unclear.
Browse	Product return click rate	Add-to-cart rate	Low click means email feels creepy or too generic.
Cart	Recovered order rate	Revenue per recipient	High clicks but low orders means checkout/payment friction.
Post-Purchase	Support tickets reduced; review rate	Email replies and usage guide clicks	Refund/review complaints show expectation mismatch.
Reorder	Second-order conversion by Day 35	Bundle/subscription adoption	Low reorder means usage, price or results gap.
Review/Referral	Verified review count	Referral purchases	Too many vague reviews means review prompts are weak.
Winback	Reactivation rate	Reply reason tags	Low reply rate means email does not feel human.

10. Deliverability and Compliance Setup

Requirement	Recommendation
Sending domain	Use a dedicated subdomain such as hello@mail.biomenlabs.com or email.biomenlabs.com. Keep transactional and marketing streams separate where possible.

Authentication	Set SPF, DKIM and DMARC before launch. Also configure branded tracking links in Klaviyo or chosen ESP.
List quality	Do not import random cold lists. Only send to opted-in subscribers, purchasers and verified leads.
Unsubscribe	Every marketing email must have a clear unsubscribe link. For large Gmail volume, one-click unsubscribe standards matter.
Warm-up	Warm gradually. Start with your most engaged contacts and increase volume slowly. Avoid blasting everyone on day one.
Mobile QA	Design for mobile first: 600px max width, single column, large CTA buttons and short paragraphs.
Testimonials	Keep written consent, screenshot proof and exact customer wording. Do not use seeded reviews without disclosure where required.
Health claims	Keep copy aligned with final approved label and regulatory consultant guidance. Use "supports" language.

11. Optional WhatsApp/SMS Overlay

Important

Do not use WhatsApp as a spam channel. Use it only with proper consent and for high-intent moments: order confirmation, delivery updates, cart help, reorder reminder and customer support. Keep marketing frequency low.

Moment	WhatsApp Use	Email Relationship
Order confirmed	Transactional confirmation and support link.	Email gives detail and founder reassurance.
Delivered	Short usage reminder: 2 capsules after meal, see guide.	Email provides full protocol.
Day 26-28 reorder	Short low-pressure reorder reminder.	Email explains month-2 value.
Cart help	Only if customer opted into WhatsApp and abandoned checkout.	Email handles objection; WhatsApp solves friction.

12. Pre-Launch QA Checklist

- Confirm final label claims with regulatory/AYUSH consultant and manufacturer before sending any email.
- Confirm final product URL, cart URL, checkout restore URL and tracking URL variables.
- Set up suppression rules so customers do not receive cart/browse/welcome emails after ordering.
- Test every dynamic variable: {{first_name}}, {{order_id}}, {{cart_link}}, {{tracking_link}}, {{review_link}}, {{reorder_link}}.
- Place test orders: prepaid, COD, failed payment, cancelled order, refunded order and delivered order.
- Write customer support response templates for PRICE, RESULTS, DELIVERY, ISSUE and QUESTION replies.
- Collect written permission before using any customer quote, photo, video or before/after style content.

- Mobile-render every email on Gmail app, iPhone Mail and desktop Gmail before activating.
- Build a weekly dashboard for flow revenue, second-order rate, review count and reply reasons.

13. Research Notes Consulted

This expert rewrite was informed by the original BIOMEN LABS Email Retention System, the final T-CORE brand/formulation context, current email automation best practices, Klaviyo custom integration guidance, Gmail sender requirements, ASCI influencer disclosure guidance, Consumer Protection advertising guidance and FSSAI advertising/claims principles. Final legal and regulatory review should be completed before activation.
